### Member Directory - Profile Details

On the RABA website there is a member directory which includes businesses which are part of RABA, and their contact details. We wish to extend this to create a more detailed directory, where local businesses can use it as a central point to find out about other local businesses and the services they provide.

Please would you fill out this short form and return with your Membership Application form - these details will eventually be put on the Member Directory on the RABA website.
